About Youth Law Australia

We are Australia's only national, technology-based community legal service. We are dedicated to addressing the human rights abuses of children and young people in Australia. We believe in equality and justice for all children and young people, and we work to achieve this by connecting and empowering young Australians with free legal information and knowledge. In other words, we work to help keep more children in school, out of trouble and free from bullying, harassment or child abuse.

Free and confidential legal advice for anyone under the age of 25, or asking a question on behalf of someone under the age of 25.
